## POWER COMPONENTS

## HARDWARE

## ASSEMBLY

PLEASE READ AND FOLLOW ALL INSTRUCTIONS CAREFULLY

### UNBOXING & LEG INSTALLATION

### HARDWARE

IMPORTANT! The grill is very heavy. Always use 2 people when lifting the grill.

#### 1 UNBOXING

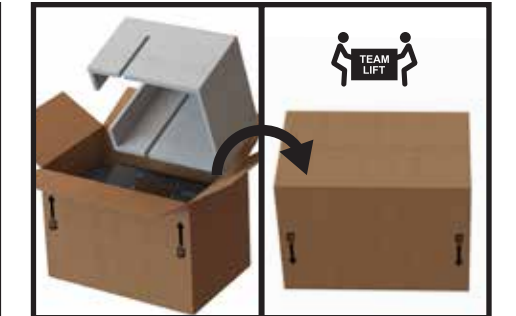

Open and remove top styrofoam and front shelf.

#### 2 UNBOXING

Remove internal grill parts and set aside. Reference parts list.

#### 3 UNBOXING & FLIP

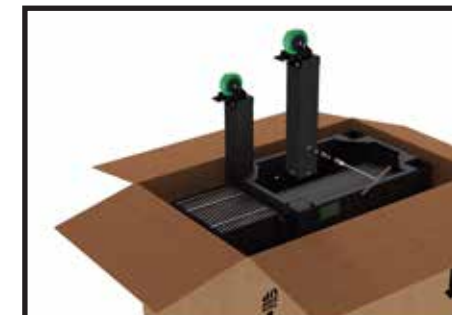

Replace stop styrofoam. Close top and flip upside down.

#### 4 UNBOXING

Remove bottom styrofoam.

#### 5 CASTER LEGS

x2 per leg

#### 6 ALL-TERRAIN WHEELS

x2 per leg

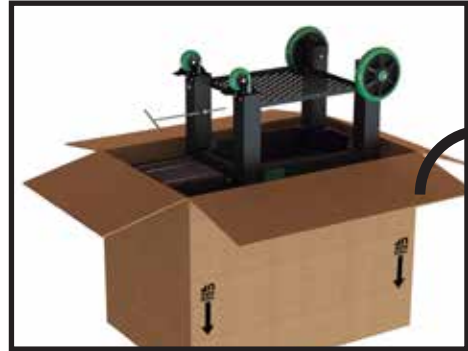

## UNBOXING & BOTTOM SHELF

**IMPORTANT!** The grill is very heavy. Always use 2 people when lifting the grill.

### HARDWARE

#### 7 BOTTOM SHELF

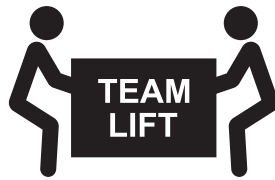

← x4

#### 8 REMOVE BOX & FLIP

Break down box walls and set aside. Carefully lift and flip right side up.

## LID HANDLE

**IMPORTANT!** Keep 2 spacers on each side of the grill lid to minimize heat transfer to the handle.

### HARDWARE

#### 9 REMOVE HANDLE

Unscrew handle from inside grill lid.

#### 10 INSTALL HANDLE

Flip hand around to the front and fasten to lid as shown here.

## FRONT & SIDE SHELVEING

**NOTE:** Front shelf mount brackets attach in the same holes used for the front legs.

### HARDWARE

#### 11 MOUNT BRACKETS

Install brackets in leg holes.  
← x4

#### 12 FRONT SHELF

Attach front shelf hinges to brackets.  
← x4

#### 13 SIDE SHELF

Line up the bullets with the pins on side wall and clip shelf into support bar.

## CHIMNEY

**IMPORTANT!** Make sure the chimney cap ALWAYS stays open.

### HARDWARE

#### 14 REMOVE BOLTS

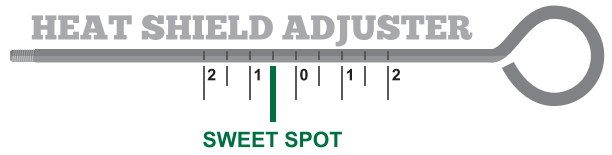

#### 15 INSTALL CHIMNEY

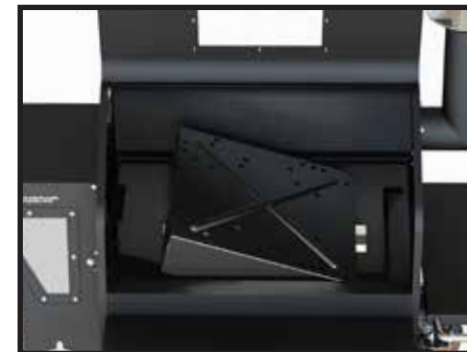

## HEAT SHIELD

**IMPORTANT!** For proper heat shield positioning, use the marks on the adjuster handle. The grill wall should align with the -.5 mark on the handle, setting the heat shield 4.25 in. from the left inside grill wall.

#### 16 HEAT SHIELD

Insert heat shield onto stainless steel slider mount brackets.

#### 17 HEAT SHIELD ADJUSTER

Insert adjuster handle into hole on right side of grill wall and screw into head shield.  
**! DO NOT OVERTIGHTEN.**

#### 18 HEAT SHIELD POSITIONING

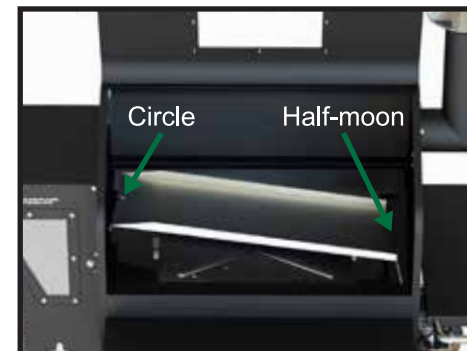

Recommended position for even heat distribution:  
4.25 in. from left wall.

## GREASE TRAY, GRATES, & GREASE BUCKET

**IMPORTANT!** Make sure to insert grease tray as shown below for proper temperature reading and grease drainage.

#### 19 GREASE TRAY

Follow grease tray cut-outs as shown.

#### 20 GRILL GRATES

Insert grates as shown.

#### 21 GREASE BUCKET

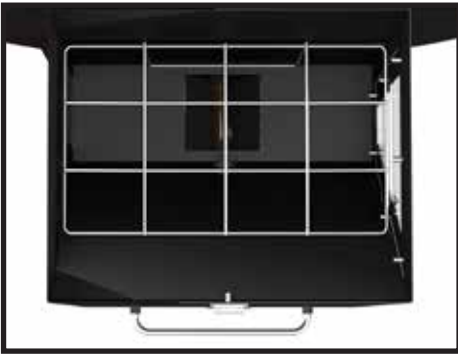

Hang bucket on drip spout.

## HOPPER GUARD

---

### 22 INSERT HOPPER GUARD

Open lid and install safety guard.

## ANTENNA

---

### 23 INSTALL ANTENNA

Screw antenna onto control board.

## ✔ YOUR GRILL IS READY!
