

SaltDogg® Pre-Wet Kit for PRO2000 and PRO2500 Series Spreaders with 60 Gallon Reservoir

Buyers Part Number: LS13

SaltDogg® Pre-Wet Kit for PRO2000 and PRO2500 Series Spreaders improves your deicing capabilities by adding liquid ice-melt to your material.

- Everything you need to install and run your pre-wet system.
- Helps salt stick to pavement and melt ice at lower ambient temperatures.
- Low maintenance electric drive.
- Sturdy corrosion resistant poly reservoir specially designed to fit against your SHPE2000.
- In-cab controls to easily adjust volume of liquid being applied.
- Includes tie downs and corrosion resistant stainless steel brackets.
