

SaltDogg® Hydraulic Pre-Wet Kit With Two 160-Gallon Poly Side Mount Reservoirs

Buyers Part Number: LS11H

Buyers Products SaltDogg Pre-Wet Kit for Municipal Dump Spreaders (MDS) adds a liquid ice-melting agent to salt before application.

- Kits contain everything you need to install and run your pre-wet system.
- Helps salt stick to pavement and melts ice at lower external temperatures.
- Your choice of electric or hydraulic pump operation.
- Sturdy poly reservoirs are designed to fit against your SaltDogg MDS Series spreader.
- 12V DC-powered pump provides variable spray rate.
- Corrosion-resistant stainless steel brackets, tie downs, and pump enclosures.

Specifications
